Adem Gunay

Frontend Lead Engineer @ WYZauto
Bangkok, Bangkok, Thaïlande

Résumé

Développeur Android passionné avec une vaste expérience professionnelle et un vif intérêt pour l'UX.

Expérience

WYZauto
Lead Frontend Engineer
janvier 2025 - Present (1 an 10 mois)

- Led the delivery of a large-scale tyre marketplace and expanded it to support vehicle spare parts by refactoring the codebase to industry best practices.
- Architected and developed a seller-facing CMS platform for catalog and product management.
- Owned technical planning, breaking down complex features into clear tasks, dispatching work, and ensuring timely delivery.
- Shaped API contracts with backend teams for multi-language, multi-country, high-performance requirements.
- Set up and maintained CI/CD pipelines for automated deployment to Google Play Store and Apple App Store.
- Established scalable frontend architecture, covering navigation, state management (Cubit/BLoC), DI (GetIt), local storage, and rendering optimizations.
- Implemented Firebase integrations (Firestore, Cloud Messaging, Hosting, Authentication) across the platform.
- Led and mentored frontend engineers, enforcing best practices, performance, and maintainable code standards.
- Collaborated with designers to create consistent, high-quality UX/UI patterns across web and mobile.

Pi Securities Public Company Limited
1 an 9 mois
